

RELIABLE PROTECTION FOR YOUR AED

Dear customer,

This brochure shows our ARKY product collection. At ARKY, we believe in great quality, competitive prices and providing an excellent service. AED accessories are just as important as the AED device itself. For example the cabinets, wall mounts and backpacks.

By supplying you with these products, we ensure that AED's can be installed at any place and in any circumstance. In that way we increase the findability and mobility of AED's. That is our philosophy and it drives us to improve our level of services day after day.

Since the beginning in 2008, we have proudly delivered our products to tens of thousands of people in over 30 countries worldwide. We are excited to see what the future holds, as we have only just got started!

Yours sincerely,

Rogier Balvers
Business Unit Manager at ARKY
